**Course Description:** Although aging is not synonymous with decline, the aging process does increase the risk of the development of chronic disease. This course is approached from a multidisciplinary perspective regarding the management of chronic disease, palliative care and end of life decisions. These will be considered in the context of the individual, family, community and the larger social systems. *This is a required course for the 4 course Graduate Certificate in Gerontology and an elective for the MS in Health Administration*

- Up to 2 courses may be taken *before* applying to a program.
- New students are eligible for a 20% discount off of the first 2 courses taken in program.
- Course applicable to both Gerontology certificate and Health Administration degree.

*Schedule Subject to Change. Please confirm at [www.regiscollege.edu](http://www.regiscollege.edu) for most up to date course info.*
