The Master of Science in Applied Behavior Analysis Program at Regis College presents

Towards Safer, Faster, and Better Functional Analysis and Treatment of Problem Behavior

Featuring

Gregory P. Hanley, PhD, BCBA-D

April 24, 2015 • 1:00 – 4:00 p.m.

Regis College • 235 Wellesley Street • Weston, MA

Dr. Hanley has been applying the principles of learning to improve socially important behaviors of children and adults with and without disabilities for over 20 years. He worked and trained at the Spurwink School, the Groden Center, and the Kennedy Krieger Institute, was degreed at the University of Florida, was tenured at the University of Kansas, and is currently a Professor of Psychology and director of the Behavior Analysis Doctoral Program at Western New England University and an adjunct professor of Psychiatry at the University of Massachusetts Medical School. Dr. Hanley has published over 80 articles in peer-reviewed journals in areas such as the assessment and prevention of problem behavior, teaching tactics for young children, and evidence-based values. Dr. Hanley is a Fellow of the American Psychological Association (Division 25), past editor of Behavior Analysis in Practice (BAP), and a past associate editor of the Journal of Applied Behavior Analysis, The Behavior Analyst, and BAP.

Who should attend:
Board Certified Behavior Analysts® and their supervisees; Regis students and faculty. Three Type 2 continuing education credits will be offered to BCBAs®.

Participants will be able to:
- describe multiple tactics to improve the safety and efficiency of the functional assessment process
- describe the types of synthesized contingencies that can be included in functional analyses of problem behavior
- design functionally-relevant, effective, and skill-based interventions capable of producing generalizable and socially valid improvements in problem behavior

Cost: $35 for general public (fee includes three Type 2 CE credits)
  Free for Regis students and faculty

All proceeds will go to assist graduate students to attend professional conferences.

RSVP: ABA Program Director Lauren Beaulieu, PhD, lauren.beaulieu@regiscollege.edu

Regis College offers a Master of Science in Applied Behavior Analysis. The 45-credit degree program includes 24 credits of required coursework, six credits of elective coursework, nine credits of practicum, and six credits of thesis. We offer small class sizes, assistance with practicum and job placements, opportunities to conduct research, and international travel to disseminate ABA to in-need populations. We are currently accepting applications for Fall 2015. Contact lauren.beaulieu@regiscollege.edu for more information.
